

COURSE OVERVIEW DE0329-4D Exploration Geology

Course Title

Exploration Geology

Course Reference

DE0329-4D

Course Duration/Credits

Four days/2.4 CEUs/24 PDHs

H-STK© INCLUDED

Course Date/Venue

Session(s)	Date	Venue
1	February 05-08, 2024	Jubail Hall, Signature Al Khobar Hotel, Al Khobar, KSA
2	May 06-09, 2024	Boardroom 1, Elite Byblos Hotel Al Barsha, Sheikh Zayed Road, Dubai, UAE
3	August 05-08, 2024	Ajman Meeting Room, Grand Millennium Al Wahda Hotel, Abu Dhabi, UAE
4	November 04-07, 2024	Business Center, Concorde Hotel Doha, Doha Qatar

Course Description

This practical and highly-interactive course includes real-life case studies and exercises where participants will be engaged in a series of interactive small groups and class workshops.

This course is designed to provide participants with a detailed and up-to-date overview of exploration geology. It covers the petroleum industry and the fundamental aspects of full life cycle of oil and gas industry; the oil and gas exploration in international business; the primary and secondary structures and petroleum relationship; the rock types and petroleum relationship covering igneous rocks, sedimentary rocks and metamorphic rocks; and the petroleum systems process including its origin, formation, migration and accumulation.

During this interactive course, participants will learn the petroleum systems elements that include oil and gas source rocks, oil and gas cap rocks and oil and gas reservoirs; the exploration methods for oil and gas consisting of surface geology, geophysical methods, geochemical methods and drilling methods; the prospect generation and evaluation including its definition, the play concept, subsurface integration, generation delineation plan and prospect and play evaluation process; the formation evaluation including well-sitting evaluation, petrophysics evaluation and core analysis evaluation; and reservoir characterization through its definition and workflow.

Course Objectives

Upon the successful completion of this course, each participant will be able to:-

- Apply and gain an in-depth knowledge on exploration geology
- Discuss petroleum industry including the fundamental aspects of full life cycle of oil and gas industry and the oil and gas exploration in international business
- Identify the primary and secondary structures and petroleum relationship
- Recognize the rock types and petroleum relationship covering igneous rocks, sedimentary rocks and metamorphic rocks
- Explain petroleum systems process including its origin and formation, migration and accumulation
- Identify petroleum systems elements covering oil and gas source rocks, oil and gas cap rocks and oil and gas reservoirs
- Apply exploration methods for oil and gas consisting of surface geology, geophysical methods, geochemical methods and drilling methods
- Explain prospect generation and evaluation including its definition, the play concept, subsurface integration, generation delineation plan and prospect and play evaluation process
- Carryout formation evaluation including well-sitting evaluation, petrophysics evaluation and core analysis evaluation
- Characterize reservoir through its definition and workflow

Exclusive Smart Training Kit - H-STK®

Participants of this course will receive the exclusive "Haward Smart Training Kit" (**H-STK**[®]). The **H-STK**[®] consists of a comprehensive set of technical content which includes **electronic version** of the course materials conveniently saved in a **Tablet PC**.

Who Should Attend

This course provides an overview of all significant aspects and considerations of exploration geology for petroleum industry professionals (petroleum engineers, drilling engineers, geologists and geophysicists) involved in the important activities of reservoir evaluation, development and management.

Accommodation

Accommodation is not included in the course fees. However, any accommodation required can be arranged at the time of booking.

Course Certificate(s)

Internationally recognized certificates will be issued to all participants of the course who completed a minimum of 80% of the total tuition hours.

Certificate Accreditations

Certificates are accredited by the following international accreditation organizations: -

• International Accreditors for Continuing Education and Training (IACET - USA)

Haward Technology is an Authorized Training Provider by the International Accreditors for Continuing Education and Training (IACET), 2201 Cooperative Way, Suite 600, Herndon, VA 20171, USA. In obtaining this authority, Haward Technology has demonstrated that it complies with the **ANSI/IACET 2018-1 Standard** which is widely recognized as the standard of good practice internationally. As a result of our Authorized Provider membership status, Haward Technology is authorized to offer IACET CEUs for its programs that qualify under the **ANSI/IACET 2018-1 Standard**.

Haward Technology's courses meet the professional certification and continuing education requirements for participants seeking **Continuing Education Units** (CEUs) in accordance with the rules & regulations of the International Accreditors for Continuing Education & Training (IACET). IACET is an international authority that evaluates programs according to strict, research-based criteria and guidelines. The CEU is an internationally accepted uniform unit of measurement in qualified courses of continuing education.

Haward Technology Middle East will award **2.4 CEUs** (Continuing Education Units) or **24 PDHs** (Professional Development Hours) for participants who completed the total tuition hours of this program. One CEU is equivalent to ten Professional Development Hours (PDHs) or ten contact hours of the participation in and completion of Haward Technology programs. A permanent record of a participant's involvement and awarding of CEU will be maintained by Haward Technology. Haward Technology will provide a copy of the participant's CEU and PDH Transcript of Records upon request.

British Accreditation Council (BAC)

Haward Technology is accredited by the **British Accreditation Council** for **Independent Further and Higher Education** as an **International Centre**. BAC is the British accrediting body responsible for setting standards within independent further and higher education sector in the UK and overseas. As a BAC-accredited international centre, Haward Technology meets all of the international higher education criteria and standards set by BAC.

Course Instructor(s)

This course will be conducted by the following instructor(s). However, we have the right to change the course instructor(s) prior to the course date and inform participants accordingly:

Mr. Saber Hussein is a Senior Geologist with over 40 years of extensive experience within the Oil & Gas and Petrochemical Industries. His specialization widely covers in the areas of Petroleum & Exploration Geology, Tectonics & Structural Development, Clastic & Carbonate Reservoir, Oil & Gas Exploration, Structural Geology Operation, Well Logs Interpretation, Formation Evaluation, Well Site Geology, Geological Operations, Well Sitting & Operation Geology, Correlation Methods, Coring & Core Analysis,

Core Handling, Overburden Effects, Conventional Data, Archie Equations, Mercury Injection, Rock Mechanics, Petrophysical Techniques, Geological, Geophysical & Petrophysical Evaluations, Stratigraphy & Sedimentology, Subsurface Maps, Geological Cross-Sections, Drilling Fluids, Drilling Data Analysis, Mud Logging, Porosity, Permeability, Basin Analysis, Reservoir Characterization, Facies Analysis & Sequence Stratigraphy, Structural Geology, Wellsite, Slick Line Operation and Fracture Characterization. Further, he is also well-versed in rock properties, seismic analysis, petroleum risk and decision, play analysis and risk assessment. Currently, he is the Exploration Division General Manager and Board Member of one of the leading Petrochemical Plant in the Middle East.

During his career life, Mr. Saber has gained his practical and field experience through his various significant position and dedication as the Exploration Division General Manager, Geology General Manager, Geological Studies Assistant General Manager, Senior Geophysicist, Geophysicist, Geological Operations Department Head, Geological Operations Section Head, Mud Expert Mud Logging Assistant, Geologist and Senior Logger. Instructor/Trainer. He is also a Board Member of SUCO Strategy Plan Committee, wherein he was responsible for supervision of all Geological, Geophysical and Petro physical Operation activities as well as Data Processing and supervising all activities pertaining to the software and hardware of work station.

Mr. Saber has a **Bachelor's** degree in **Geology**. Further, he is a **Certified Instructor/Trainer** and an active member of Egyptian Petroleum Exploration Society (**EPEX**), American Association of Petroleum Geologists (**AAPG**), GSE and the Petroleum and Scientific Professional Syndicate. He has further delivered numerous trainings, courses, seminars and conferences internationally.

Training Methodology

This interactive training course includes the following training methodologies as a percentage of the total tuition hours:-

30% Lectures

20% Workshops & Work Presentations

30% Case Studies & Practical Exercises

20% Software, Simulators & Videos

In an unlikely event, the course instructor may modify the above training methodology before or during the course for technical reasons.

Course Fee

Al Khobar	US\$ 6,500 per Delegate + VAT . This rate includes H-STK [®] (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.
Dubai	US\$ 6,500 per Delegate + VAT . This rate includes H-STK® (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.
Abu Dhabi	US\$ 6,500 per Delegate + VAT . This rate includes H-STK® (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.
Doha	US\$ 7,500 per Delegate. This rate includes H-STK® (Haward Smart Training Kit), buffet lunch, coffee/tea on arrival, morning & afternoon of each day.

Course Program

The following program is planned for this course. However, the course instructor(s) may modify this program before or during the course for technical reasons with no prior notice to participants. Nevertheless, the course objectives will always be met:

Day 1

0730 - 0800	Registration & Coffee	
0800 - 0815	Welcome & Introduction	
0815 - 0830	PRE-TEST	
0830 – 0930	Introduction to Petroleum Industry	
	Fundamental Aspects of Full Life Cycle of Oil and Gas Industry • Overview Oil &	
	Gas Exploration in International Business	
0930 - 0945	Break	
0045 1020	Structures & Petroleum Relationship	
0945 – 1030	Primary Structures	
1030 - 1230	Structures & Petroleum Relationship (cont'd)	
	Secondary Structures	
1230 - 1245	Break	

1245 – 1420	Rock Types & Petroleum Relationship
	Igneous Rocks • Sedimentary Rocks
1420 – 1430	Recap Using this Course Overview, the Instructor(s) will Brief Participants about the Topics that were Discussed Today and Advise Them of the Topics to be Discussed Tomorrow
1430	Lunch & End of Day One

Day 2

Rock Types & Petroleum Relationship (cont'd)	
Metamorphic Rocks	
Break	
Petroleum Systems Process	
Origin & Formation ● Migration ● Accumulation	
Petroleum Systems Elements	
Oil & Gas Source Rocks • Oil & Gas Cap Rocks • Oil & Gas Reservoirs	
Break	
Exploration Methods for Oil & Gas	
Surface Geology • Geophysical Methods • Geochemical Methods • Drilling	
Methods	
Recap	
Using this Course Overview, the Instructor(s) will Brief Participants about the	
Topics that were Discussed Today and Advise Them of the Topics to be Discussed	
Tomorrow	
Lunch & End of Day Two	

Day 3

Day 3		
0730 - 0930	Prospect Generation & Evaluation	
	Definition ● The Play Concept ● Subsurface Integration	
0930 - 0945	Break	
0945 – 1100	Prospect Generation & Evaluation (cont'd)	
	Generation Delineation Plan ● Prospect & Play Evaluation Processes	
1100 – 1230	Formation Evaluation	
	Well-Sitting Evaluation	
1230 – 1245	Break	
1245 – 1420	Formation Evaluation (cont'd)	
	Petrophysics Evaluation	
1420 – 1430	Recap	
	Using this Course Overview, the Instructor(s) will Brief Participants about the	
	Topics that were Discussed Today and Advise Them of the Topics to be Discussed	
	Tomorrow	
1430	Lunch & End of Day Three	

Day 4

0730 - 0930	Formation Evaluation (cont'd)	
	Core Analysis Evaluation	
0930 - 0945	Break	
0945 – 1100	Reservoir Characterization	
	Definition	
1100 – 1230	Reservoir Characterization (cont'd)	
	Workflow	
1230 – 1245	Break	
1245 – 1345	Reservoir Characterization (cont'd)	
	Case Studies	
1345 - 1400	Course Conclusion	
1400 – 1415	POST-TEST	
1415 – 1430	Presentation of Course Certificates	
1430	Lunch & End of Course	

<u>Practical Sessions</u>
This practical highly-interactive course includes real-life case studies and exercises:-

<u>Course Coordinator</u> Kamel Ghanem, Tel: +971 2 30 91 714, Email: <u>kamel@haward.org</u>
